Like most non-profit organizations, we are trying to build our membership, and we are requesting your support. We want membership that is not only interested in learning, but also in teaching. We can all learn from each other, and we welcome your support. If you believe in what we are accomplishing and want to be a member of our active fishing organization, please feel free to join us. A family membership is \$40.00 and a corporate membership \$60.00. Please visit our website gigharborpsa.org where you can see a short video of the projects we are working on,
